SKILLS

- **Languages:** C++, JavaScript
- **Frontend:** HTML, CSS, ReactJS, Tailwind CSS
- **Backend:** NodeJS, ExpressJS
- **Database:** MongoDB, Mongoose
- **Tools:** GitHub, Thunder Client, VS CODE

PROJECTS

- **CareerPilot (AI-Based Placement Preparation Platform) | [GitHub](#)**
Objective:-- CareerPilot was created to make placement preparation more organized and practical for students by bringing important career tools together in one place.
Description:-- This project is a full-stack web application where students can upload their resume to check ATS score, analyze their GitHub profile, get career suggestions, and track job applications in a simple dashboard. The idea was to build something useful for day-to-day placement preparation instead of keeping everything scattered.
Domain:-- Career Development / Student Placement Support
Tech Stack:-- ReactJS, Tailwind CSS, NodeJS, ExpressJS, MongoDB, GitHub API
Duration:-- Jan 2026 – Mar 2026
- **MediCare (AI-Powered Patient Healthcare & Appointment System) | [GitHub](#)**
Objective:-- To provide an intelligent healthcare platform offering AI-based medical suggestions and appointment management.
Description:-- Developed a full-stack healthcare web application featuring an AI-powered medical assistant chatbot using the Gemini API, along with secure authentication and appointment booking functionality.
Learning Outcomes:--Hands-on experience with MERN stack development AI integration using Gemini API
Understanding of healthcare workflows and REST APIs
Domain:-- Healthcare Technology
Tech Stack:-- ReactJS, Tailwind CSS, NodeJS, ExpressJS, MongoDB, JWT, Gemini API
Duration:-- Aug 2025 – Dec 2025
- **Apna Shop (E-Commerce Website) | [GitHub](#)**
Objective:-- The objective of *Apna Shop* is to provide users with a convenient platform to browse, customize, and purchase products online, similar to leading e-commerce platforms like Amazon and Flipkart.
Description:-- Built MERN-based e-commerce platform supporting authentication, product filtering, and secure JWT authorization; reduced API response time using optimized MongoDB queries.
Learning Outcomes:--Gained hands-on experience in front-end development, responsive design, and e-commerce workflows. Learned about user-driven customization and material-specific product handling. Strengthened problem-solving and project implementation skills.
Domain:-- E-Commerce
Tech Stack:-- HTML, CSS, ReactJS, NodeJS, MongoDB
Duration:-- Feb 2025 – May 2025

CERTIFICATES

- | | | |
|---|-----------------------------|----------------|
| • Responsive web-design by Freecodecamp | Certificate | November 2023 |
| • IBM – Introduction to HTML, CSS & JavaScript (Coursera) | Certificate | September 2024 |
| • Web-fundamentals by Infosys Springboard | Certificate | August 2025 |

ACHIEVEMENTS

- 120+ Questions solved on Leetcode
- Built multiple frontend and full-stack projects
- Active GitHub contributor

EDUCATION

- | | |
|---|--|
| • Lovely Professional University
B.Tech in Computer Science & Engineering | Phagwara, Punjab
<i>Since August 2023</i> |
| • DR Nilambar Choudhary College
<i>Intermediate; Percentage: 66.4</i> | April 2020 – March 2022 |
| • SSGyanBharti School
<i>Matriculation; Percentage: 73.4</i> | April 2018 – March 2020 |
